RENOVATION FRAME FROM BAUFENS

Replacing old windows

Renovation windows are the ideal solution for replacing old windows. Installation of renovation windows is quick and easy. It does not require a complete dismantling of the old window frames

For historic buildings

Non-invasive installation of a renovation window makes it the best and often the only solution to be used in historic buildings. It allows inserting a new window with high thermal and acoustic performance and at the same time reduces the risk of damage to the construction.

Optimal choice

Baufens renovation frame windows are also the optimal choice for you if you want to sell joinery on the Mediterranean market, for example in France, Italy, or Spain, where windows with so-called “fin” found many of their supporters.
